COMPANY OVERVIEW

About Us

Founded in 2014, Uduhu Holdings (Pty) has evolved into a distinguished provider of mechanical and civil engineering services across diverse industries. Our esteemed clientele comprises leading organizations in South Africa, and our reputation is built on a foundation of specialized engineering expertise.

At Uduhu Holdings, we pride ourselves on our established engineering approach tailored to efficiently address and manage unique project requirements. As a 100% black-owned company with a high BBBEE contributions, we are committed to fostering inclusivity and diversity within the industry.

Our team at Uduhu Holdings is composed of passionate and professional individuals who share a common goal to revolutionize the industry through their collective expertise. We are dedicated to delivering high-quality engineering solutions that exceed client expectations and contribute to the advancement of the field.

OUR PROCESS

Mission

Our mission is to empower individuals and elevate the skill-based industry, specifically within Mechanical and Civil Engineering services, mechanical supplies, and welding services for the plant and mining sectors. We are committed to fostering safe and mutually beneficial relationships with our stakeholders.

Vision

We aspire to be a world-renowned leader in sustainable engineering solutions, spearheading innovation for a cleaner and more efficient future. Our vision is to create a global landscape where our cutting-edge technologies and expertise play a pivotal role in shaping a more sustainable and environmentally responsible industrial ecosystem.

WHY US

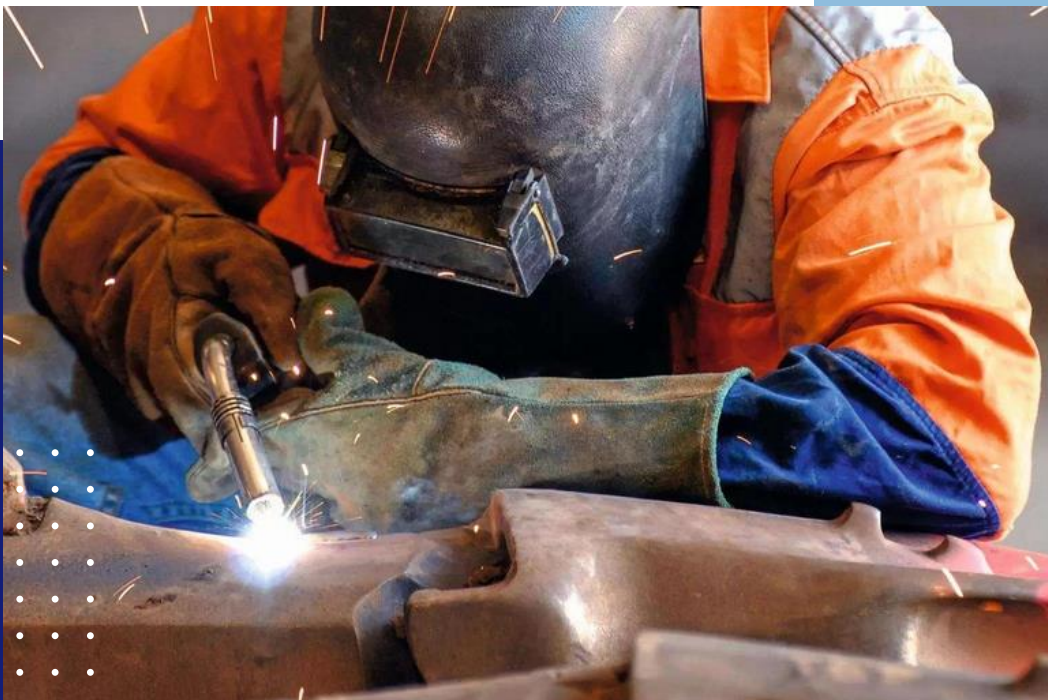

➤ **Exceeding Expectations through Unparalleled Quality:**

At Uduhu Holdings, we transcend the traditional boundaries of an engineering firm; we are your dedicated partners committed to bringing your vision to life. Specializing in mechanical and civil engineering, our distinguishing factor lies in our unwavering commitment to delivering work of exceptional quality that consistently exceeds expectations.

➤ **Your Success is Our Priority:**

We recognize that your project is more than just a task; it's a reflection of your aspirations and a significant investment. At Uduhu Holdings, we are devoted to your success. Our team approaches each project with a level of dedication that goes beyond mere job completion—we tirelessly work to transform your vision into a tangible reality.

➤ **Seasoned Experience and Expertise:** With a rich history in the field, our engineers bring a wealth of knowledge and expertise to every project. Over the years, we have successfully navigated a diverse array of challenges, ranging from intricate mechanical systems to complex civil engineering endeavours. Trust us to infuse your project with the invaluable experience and proficiency that set us apart in the industry.

WHAT WE DO

1

Welding Engineering

Our welding engineering services are characterized by precision and expertise. We employ cutting-edge techniques and a highly skilled team to ensure the integrity and strength of welded components. Whether it's structural welding, material analysis, or quality control, we are your trusted partner in welding engineering solutions.

2

Construction

Our expertise extends across a spectrum, including the construction of concrete structures, steel structures, earthworks, sandblasting, and corrosion protection. Whether for commercial or industrial endeavors, our comprehensive services ensure each project is a testament to both functionality and aesthetic excellence

3

Consulting Engineering & Management

We provide comprehensive guidance, technical expertise, and project management solutions. Whether you require assistance in project planning, feasibility studies, or regulatory compliance, civil and structural designs, we bring experience and insight to make your project a triumph.

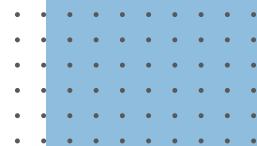

4

Fabrication, Repairs & Installation

From intricate metal fabrication to swift and reliable repair services, we have your needs covered. Our expert team can craft, mend, and install with utmost precision. We excel in creating custom solutions, handling repairs efficiently, and ensuring installations are seamless, no matter how complex the task.

NOTABLE PROJECTS

Beyond all else, we have faith that our work will convey its own message. Featured below are select recent projects, though we encourage you to reach out for case studies more closely aligned with your unique requirements.

EGM - MILL Building structural Modifications:

Scope: Earthworks and R.C Concrete, Steel Fabrication and Installation & Sigma Corrosion Protection Coating

Acid Wash Steel Support Structure

Scope: Earthworks and R.C Concrete, Steel Fabrication and Installation & Sigma Corrosion Protection Coating

EGM Crossover Structure :

Scope: Steel fabrication and installation of platform, chute, underpan & pipework, Linatex Rubber Lining & Sigma Corrosion Protection Coating

EGM Surface source Cyanide line replacement:

Scope: Cyanide lining steel pipe, Pipe cladding & Heat trace cable installation

Elikhulu Sub-station Masonry Walls Repair:

Scope: Fabrication and Installation of steel plates

SASOL Fire station structure and Export plant coal chute:

Scope: Steel fabrication and Installation & Sigma Corrosion Protection Coating

Lowered CIL Tank Escape Route Support Structure:

Scope: Earthworks and R.C Concrete, Steel Fabrication and Installation, Sigma Corrosion Protection Coating

SASOL U217 Platform and Staircases:

Scope: Steel Fabrication and Installation & Sigma Corrosion Protection Coating

Elikhulu Entrance Asphalt Road:

Scope: Earthworks and Road Layers & Road surfacing with hot mix asphalt

Air Liquide Shelter and Carports:

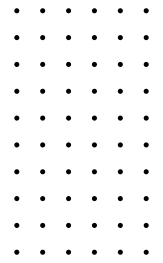

Scope: Earthworks and R.C Concrete, Steel Fabrication and Installation with IBR Sheeting, Sandblasting and Sigma Corrosion Protection Coating, Pavement Parking: Paved blocks and Road Markings, Store Container Installation & Satellite Tower installation

ESKOM East HSSD Main Cooling Water Duct and piping:

Scope: Condenser chemical cleaning and/or HPWJ, Cooling tower cleaning and Internal repairs, MCW valves replacement and repairs MCW Pumps overhaul (Tutuka Maintenance) & Heat exchanger plates

COMPANY VALUES

Quality

We proudly hold ISO 14001:2015 and ISO 45001:2018 accreditations, showcasing our unwavering commitment to quality management, and environmental sustainability. These certifications signify our proactive approach to eco-friendly practices and the assurance of a secure working environment.

Finance

In strict accordance with applicable laws and regulations, our financial management system undergoes rigorous independent audits on an annual basis. Additionally, we proudly hold a commendable 6CE 6ME grading from the Construction Industry Development Board (CIDB), affirming our commitment to excellence in financial practices within the construction industry.

Safety

Adhering to the ISO 45001:2018 safety management system, we uphold a globally recognized framework for our occupational health and safety (OHS) practices. Our objective is to minimize workplace incidents, prioritize the well-being of our team, and enhance our overall OHS performance.
